'Tis the Season...

Unfortunately, 'tis the season for icy driving and heavy snow loads to name a few of the less enjoyable signs of winter. Each insurance company handles claims differently, but there are some common necessities when reporting a claim:

1. Have **your policy number** handy.
2. Be specific about the **date of loss**.
3. Be detailed in your **description of the loss**: where, when, how, who.
4. Follow your company's **claim reporting guidelines**.
5. **Protect yourself and your property from further loss**: go to the doctor, cover a broken window, garage a damaged vehicle...
6. **Call us** should you need help navigating the claims process.

continued...

www.InsuranceMadeEasy.com, our Agency website, offers a **claim tab** with the claim department **telephone** number and **website** link for each of our insurance company partners for easy claim reporting. You may contact them 24/7/365. We are happy to assist you.

So let us leave you with some thoughts...

It is always okay to **call the police** to do a report...

It is a good idea to **get the other party's information** and not rely on receiving a police report...

Call your insurance company ASAP to get an adjustor assigned and any other help they can give you quickly...

It is a good idea to **take photos** then take simple measures to protect your property from further damage...

Save all paperwork and contact info given to you...

It is always okay to **communicate with the adjustor** assigned to your claim...

And remember, **read your policy** before an accident or loss ...

Call us any time to discuss your coverage and what is important to you.

NOTE: The principles contained in this material are general in scope and, to the best of our knowledge, current at the time of publication. The insurance companies, IIABA and AFMA specifically disclaim all liability for damages or personal injury alleged to arise from reliance on the information contained in this document.
